

# PROBAL Electronic Upgrade

## Dynamic Balancing Retrofit System

T&S Machines offers an upgrade package for many different models of balancing machines. With the PROBAL Electronics Upgrade package we can upgrade Stewart Warner, Pro-Bal, CWT, Hines, Bal-Tech, Schenck and many other brands.

Reenergize your worn-out or obsolete system with state-of-the-art electronics that eliminate the guesswork.

Benefits Include:

- Low Initial Investment
- Expandable Features
- Available for most machines
- Reduced balance time when converting from soft bearing setups
- Computer Options
- On-Site Install and Training available
- Remote Software included for support
- Increase the value of your upgraded machine
